

GRANITE

New Venetian Gold

Type	Granite
Finish	Polished
Color family	Gold & Yellow
Origin	Espírito Santo, Brazil
Also called	Venetian Gold
Sealing	Confirm requirements for the selected stone

New Venetian Gold is a classic Brazilian gold granite quarried in Espírito Santo, the heart of Brazil's stone industry. Geologically a medium-grained gneiss/granite of the Precambrian period, its feldspar gives a creamy golden background while flecks of dark-red garnet, white and black add depth and sparkle. The 'Venetian Gold' name evokes Old-World, golden-hued opulence and it remains one of the most popular golds in North America.

CARE & INSTALLATION

Clean with warm water and a stone-safe cleaner; wipe spills promptly and use trivets. Sealing needs depend on the selected stone and its use; confirm the care schedule with us. Slab movement and tone vary from swatches. Confirm the actual slab, finish and thickness before fabrication.
